AGED MEN MONKEY WITH PEP TABLETS

Then Startling Things Happen on Roof of "Greatest Show on Earth."

SCIENCE GETS PUBLICITY

Is Made That Circus Is to Open Thursday.

Unquestionably the most interesting and important demonstration of the pep value to man of the monkey gland reinvigorator, as prescribed in tablet form, was that given in Madison Square Garden yesterday afternoon for the benefit of the press when the Ringling Brother and Barnum & Bailey's Circus, bringing epring and welcome aunshine, not used, unpacked and set up for housekeeping. There has been, as nearly every one doubless is aware, other demonstrations of the of this nature, but it remained for the circus, and especially for the sections minded publicity men of the circus, to provide the cold, authentic atmosphere

Firmly repressing the temptation to pure science. interest the newspapers in any one of number of absolutely new circus pite nomena, stuff never pulled herare, a too model of a camel, the inhant having arrived in winter quarters at Bridge-port: a flock of similarly fresh then cubs; a discussion of the effect of Hox-Tip fure as a substitute for boose in the feeding of the circus's old soak and in spite of the danger that the news of the demonstration might leak out, devoted its entire intellect and energy to the monkey extract experiment. I must be recorded also that the member of the staff, with rare devet ted themselves as subjects for experi-

Jewels Valued at \$20,000 Gone From Home of Aaron Lowenstein, Lawyer.

CELLAR STOCK VANISHES

Myron Borg Loses 40 Quarts-Liquor and Furs Stolen-Actress Loses Gems.

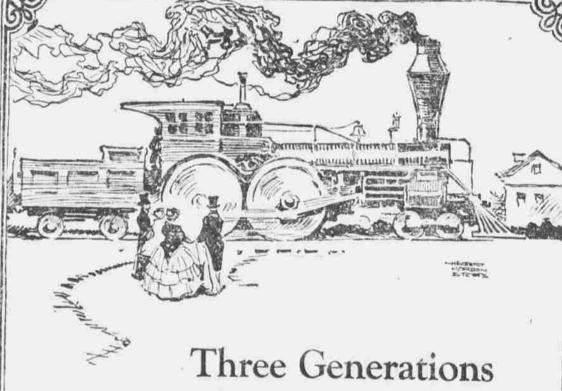

Diamonds and the jewels that sparide n bottles continue to be the objectives of Manhattan burglars, according to reports of recent robberies.

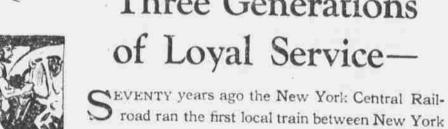

Diamonds valued at \$20,000 were stolen last Monday from the home of Aaron Lowenstein, wealthy lawyer, at 318 West Seventy-first street, it was to ported. Entrance was made supposedly by means of a passkey through the front door to Mrs. Lowenstein's rooms on the second floor, as servants in the house at the time heard no commotion. The lost included a large solitaire ring, a bowknot pin with diamond clusters, diamond bracelet, diamond studded wnet watch and several two stone diamond ings. The Lowenstein family decline to

liscuss the case Almost as valuable, according to some standards, was the loot taken from the home of Myron I Borg 334 West Selectly-seventh street. Mr. Borg's cellar contained forty bottles of old liquid when a few days ago he employed to a friend with a wagon, it is supposed

Eighteen bottles of gin and whisker "value unfigurable," and \$1,000 worth of furs were taken on Thursday afternoon from the apartment of Major and Mrs. Duncan G. Harris at 104 East Fifty-sixth street. Entrance was made by mmying the front door when the family and servants were out. The burglars acked up the bottles and fur pic Major Harris's bugs and suitcases and walked out unsuspected.
Further investigation into the robbers

last week of the apartment of Mar-Eilis, opera singer, 17 West Fifty-seventh street, when \$6,000 worth of jewell was taken, has disclosed that a muviously from the apartment in the same building occupied by Jeanne Eagels of "The Wonderful Thing" and VDaddies Miss Eagels declined to set a value on jewelry was worth more than \$10,000.

road ran the first local train between New York and Peekskill. Patrick Boylan, who had worked for years as engine-tender and fireman, was its engineer. Full of honors and good deeds, the life of Patrick Boylan came to an end, but William, his son, trained in the tradition and practice of the engineer's calling by his father, daily runs his switch engine at Harmon. William the second, grandson of Patrick, still following the family tradition, is a passenger brakeman on the Hudson River Division. Vincent, son of William the first, works in the Equipment Department. Margaret, his sister, is in the office of the Auditor of Passenger Accounts.

The Boylans are no prouder of this record than are we. Three generations of loyal service-it is fine to have given them; it is fine to have inspired such devotion. The organization which can thus hold the good-will of a family from father to son and grandsons is more than mechanically efficient. It is human.

If we are able to give the public an efficient and satisfactory railroad service, it is largely because we have thousands of employes as faithful and loyal as the Boylans. We know your interests and ours could be in no better hands.
